

## **Chartered Landscape Architect**

As a result of our continued success with repeat opportunities from existing clients in addition to success in winning new clients, our team based in Tower Bridge, London or Norwich is looking for a Chartered Landscape Architect to assist the multidisciplinary team in developing designs and delivering projects.

We are a friendly, busy and motivated Landscape design team with a growing track record of successfully delivering projects in London and the Southeast.

With a secure work pipeline comprising of projects within the Education, Residential, Public Realm and Healthcare sectors you would be pivotal in offering design expertise to cover the whole project lifecycle, from feasibility through design development, detail design and into construction. You will be familiar with RIBA stages and the applicable outputs and be confident working alone within a multi-disciplinary design team. You will be responsible for delivering landscape design outputs, as well as advising on risk relating to your area of expertise, whilst being mindful of the programme, quality and cost requirements of your work.

You would be expected to work closely with the team Associate to ensure that projects are delivered efficiently, professionally and meeting the client expectations. We would encourage you to play an active part in collaborating with the immediate and wider teams together with providing guidance to junior colleagues.

You would have the opportunity to be involved in a portfolio of projects ranging from faster simpler projects to full multi-disciplinary design projects with multimillion-pound budgets.

### **About Hamson Barron Smith**

Hamson Barron Smith are an integrated design and building consultancy founded on the principles of quality, innovation, respect and trust.

We operate from a national network of key strategic geographic hubs: London, Haywards Heath, Norwich and Edinburgh. As part of the Norse Group, we have access both to additional resources and specialisms, but also a diverse portfolio of work opportunities.

We provide the core services of Architecture, Quantity Surveying, Building Surveying, Project Management and Building Services Engineering; supported by teams of Structural Engineers, Geo-Environmental Engineers and Landscape Architects.

As a specialist interdisciplinary consultancy, Hamson Barron Smith have professional teams who provide a wide range of skills and experience each bringing their passion, interest, unique skills and experience to each project. We work well as a group, have fun and respect each other's individual drivers.

We support our staff in their career growth and provide opportunities for development throughout the Company and encourage all colleagues to think innovatively to ensure that we continue to drive forwards as a consultancy practice.

Hamson Barron Smith is private limited company which is wholly owned by Norse Consulting Group Limited and as such is part of the Norse Group. We share some central resources with the Norse Group and trade internally with other companies in the Group in addition to our external clients.

The Norse Group is the largest Local Authority trading company (LATCo) in the UK and is ultimately owned by Norfolk County Council.
